

Multiple IBRA & NBHA Money Winner

My professional barrel racing horse REGAIN FAME, aka Dimmer, was diagnosed with a torn high suspensory on his right front leg. I was told about many procedures and heard numerous opinions about what route I should take to get him back into the arena quickly. I was concerned with the longevity of his career, as he was only 8 years old at the time. My vet recommended Stem Cell surgery. Dimmer went to Alamo Pintado to have his surgery and I couldn't be happier with the results. He healed strong and has stayed sound. I am so pleased with the results and am thrilled with my choice to get stem cell done on Dimmer. Thanks to it, he is back to his winning ways!!!
